

MMDA Welcome Page

The Mid-Atlantic Medical Directors Association is a professional association of medical directors, physicians, nurse practitioners, and other licensed and non-licensed professionals practicing in the long term care continuum dedicated to excellence in patient care. On this site, MMDA will post original materials along with links to existing resources, tools, articles and legislative information designed to advance our mission to improve patient care and promote the professional development of long term care practitioners. MMDA members are encouraged to submit non-commercial, long term care related items which they feel should be shared with our members.
